Functions

Piece count | Check weight | Weight % | Density
Gross Net Tare | Recipe | Statistics | >

Specifications :

- Capacity : 6.1g
- Readability : 0.001mg
- Repeatability : 0.004mg
- Linearity : 0.005mg
- Pan Size : 30mm dia
- Response time : ≤ 8Sec

Features :

- Date & Time display function
- 5-inch touch screen interface
- Automatic internal calibration
- Built-in advanced functions such as formulation, GLP compliance, and piece counting
- Multi-language support (7 languages)
- Multi-user password security
- Connectivity via RS232C and USB ports
- Animal weighing, Piece Counting, Percentage Weighing Totalizing ∑, High /Low Threshold weighing function.

WindShield
Dual wind-shield design for improved airflow and protection against temp-erature fluctuations with an evaporated metal coating reduces static charges

Standard Accessories
Ionizer & Anti-vibration pad

The balance includes an ionizer to neutralize static on charged samples. An Anti-vibration pad to ensure stable, accurate measurements.

Dimensions :

- Indicator Dimension (LxWxH) : 173 x 180 x 92mm
- Distance pan/ top windshield : 75mm
- Winshield Internal diameter : 165mm
- Weighing Chamber Size : 165 x 165 x 75mm
- Dimension (LxWxH) : 510 x 410 x 520mm
- Net / Gross Weight : 7.5kg / 11kg

Applications: Pharmaceutical laboratories, Chemical and research labs, Material science, Environmental testing
